Solutions**

1. Central Tube Fibre Prysmian Group

Used for LAN and WAN backbones, telecom access lines, fibre to business and fibre to the building drop connections; as well as fibre to the home drop and access connections.

2. RILT Fibre Prysmian Group

Efficient packaging of high fibre counts, lightweight and easy to install. Prysmian RILT fibre allows for quick deployments and labour savings.

3. Microduct Fibre Prysmian Group

MICRODUCT cables provide optimized jetting performance for underground microduct installations. Prysmian microducts ranging from 10 mm to 14 mm, or larger.
